

## Monthly Sales Revenue and Sales Volumes for the period ending August 31, 2011

**September 14, 2011** - International Barrier Technology Inc. ("Barrier") (IBTGF: OTCBB; IBH: TSXV), a manufacturer of proprietary fire-resistant building materials has released year-to-date and monthly and revenue and sales volumes results for the period ending August 31, 2011. Total revenue generated for the first two months of the fiscal year (Jul-Aug) increased 16% to \$709,787 from \$609,553 in Jul-Aug 2010. This includes an increase in revenue into the Residential Roof Deck/Wall Assembly/Structural Insulated Panel Market of 43% and 8% into the Commercial Modular industry. Overall revenue generated for August was \$300,806, slightly lower (7%) than the \$325,797 that was generated in August 2010.

Total sales volume of shipments for the year-to-date period (Jul – Aug 2011) is 11% higher (1,353,900 sq. ft. vs. 1,215,500 sq. ft.) over the comparable period in 2010. This reflects an increase in the Residential Roof Deck/Wall Assembly/Structural Insulated Panel markets of 50%. The Commercial Modular market shipments are slightly lower (by approximately 15%) fiscal year over year. Sales volume of shipments of Barrier products for the month of August 2011 were 608,000 sq. ft. vs. 699,700 sq. ft. in August 2010.

During August, a substantial Structural Insulated Panel project was specified and orders placed for future shipments. In addition, a strong distribution partner was added in Texas to service a large new Multi-Family Residential Roof Deck project.

### **About International Barrier Technology Inc.**

International Barrier Technology Inc. (OTCBB: IBTGF; TSXV: IBH) develops, manufactures, and markets proprietary fire-resistant building materials branded as LP<sup>®</sup> FlameBlock<sup>®</sup> Fire-Rated OSB Sheathing and Mule-Hide FR Deck Panel. Barrier's award-winning fire-resistant wood panels use a patented, non-toxic, non-combustible coating with an extraordinary capability: it releases water in the heat of fire. The panels exceed "model" building code requirements in every targeted fire test and application, and are unique in combining properties that increase panel strength and minimize environmental and human impact. Barrier's family of products provides customers a premium material choice meeting an increasingly challenging combination of requirements in residential and commercial building construction.
