

## ***January 2008 Monthly Sales Revenue and Sales Volumes***

**February 8, 2008** - International Barrier Technology Inc. ("Barrier") (IBTGF: OTCBB; IBH: TSXV), a manufacturer of proprietary fire-resistant building materials has released revenue and sales volumes results for the month ending January 31, 2008. Overall revenue generated for the month was \$333,718, only about \$14,000 lower than the \$348,054 during the same period in 2007. Revenue attributable to the Residential Roof Deck Market grew 71% to \$47,960 (vs. \$27,967 in January 07). Revenue into the Commercial Modular Market was \$133,837 vs. \$147,950 in 2007.

Sales volume of shipments of Blazeguard product for the month ending January 31, 2008 was 518,000 sq ft. This compares to the 542,700 sq ft that was shipped during the same period one year ago. With Florida slowly starting to show some life, Residential Roof Deck sales grew 30% to 112,500 sq ft over 86,800 sq ft last January. This was the first year over year monthly increase into this market since November of 2006. In addition, it was equal to or better than 7 out of 12 months in calendar 2007. Commercial Modular shipments were slightly lower at 405,600 sq ft vs. 455,900 sq ft shipped during the same month last year. Many commercial modular plants planned shut-down periods at the end of December and beginning of January, which are reflected in the slight decline. Sales at the end of January and into February have resumed at normal levels. In addition, a new modular manufacturer in Pennsylvania chose to use our product in a large modular product. Their multiple truck load shipment will occur in February.

### **About International Barrier Technology Inc.**

International Barrier Technology Inc. (OTCBB: IBTGF; TSXV: IBH) develops, manufactures, and markets proprietary fire-resistant building materials branded as Blazeguard®. Barrier's award-winning Blazeguard® wood panels use a patented, non-toxic, non-combustible coating with an extraordinary capability: it releases water in the heat of fire. The panels exceed "model" building code requirements in every targeted fire test and application, and are unique in combining properties that increase panel strength and minimize environmental and human impact. Blazeguard® provides Barrier's customers a premium material choice meeting an increasingly challenging combination of requirements in residential and commercial building construction. Blazeguard® customers include many of the top multifamily homebuilders, and commercial modular building manufacturers in the United States.
