## Monthly Sales Revenue and Sales Volumes for the period ending January 31, 2012

**February 10, 2012** - International Barrier Technology Inc. ("Barrier") (IBTGF: OTCBB; IBH: TSXV), a manufacturer of proprietary fire-resistant building materials has released monthly revenue and sales volumes results for the period ending January 31, 2012. Sales revenue generated fiscal year-to-date (Jul-Jan) increased 17% from \$2,050,891 last year to \$2,394,381. This includes an increase in revenue into the Residential Roof Deck/Wall Assembly/Structural Insulated Panel Market of 92% and there was a slight decline in revenue into the Commercial Modular industry of 7%. Overall revenue generated for January was \$301,141, an increase of 2% over the \$294,384 shipped in January 2011.

Total sales volume of shipments for the year-to-date period (July – January 2012) is 27% higher (5,283,600 sq. ft. vs. 4,174,500 sq. ft.) over the comparable period in 2011. This reflects an increase in the Residential Roof Deck/Wall Assembly/Structural Insulated Panel markets of 99%. The Commercial Modular market shipments are slightly lower (by approximately 18%). January 2012 shipments were 746,512 sq. ft. vs. 646,240 sq. ft. shipped in January 2011, an increase of 16%.

In January, Barrier and partner, Mule-Hide Products exceeded 30,000,000 square feet in shipments of the private labelled product, FR Deck Panel. The FR Deck Panel has been a successful solution since inception in 2004, for Commercial Modular Applications with UL listed Class A and Class C systems. Typical uses for this product have been in the roof deck of portable classrooms, job-site construction trailers, portable office spaces, government barrack units, and temporary housing for rail road expansion projects.

### **About International Barrier Technology Inc.**

International Barrier Technology Inc. (OTCBB: IBTGF; TSXV: IBH) develops, manufactures, and markets proprietary fire-resistant building materials branded as LP<sup>®</sup> FlameBlock<sup>®</sup> Fire-Rated OSB Sheathing and Mule-Hide FR Deck Panel. Barrier's award-winning fire-resistant wood panels use a patented, non-toxic, non-combustible coating with an extraordinary capability: it releases water in the heat of fire. The panels exceed "model" building code requirements in every targeted fire test and application, and are unique in combining properties that increase panel strength and minimize environmental and human impact. Barrier's family of products provides customers a premium material choice meeting an increasingly challenging combination of requirements in residential and commercial building construction.
