This reflects strong double digit increases in both the Residential Roof Deck/Wall Assembly/Structural Insulated Panel markets (55%) and the Commercial Modular Market (29%) fiscal year over year. Sales volume of shipments of Barrier products for the month of June 2011 increased 38% to 643,648 sq. ft. vs. 466,144 sq. ft. shipped during June 2010. Additional information about fiscal year financial performance and accomplishments will be released with the annual 10K filing due mid-September.

About International Barrier Technology Inc.

International Barrier Technology Inc. (OTCBB: IBTGF; TSXV: IBH) develops, manufactures, and markets proprietary fire-resistant building materials branded as LP[®] FlameBlock[®] Fire-Rated OSB Sheathing and Mule-Hide FR Deck Panel. Barrier's award-winning fire-resistant wood panels use a patented, non-toxic, non-combustible coating with an extraordinary capability: it releases water in the heat of fire. The panels exceed "model" building code requirements in every targeted fire test and application, and are unique in combining properties that increase panel strength and minimize environmental and human impact. Barrier's family of products provides customers a premium material choice meeting an increasingly challenging combination of requirements in residential and commercial building construction.
