

Monthly Sales Revenue and Sales Volumes for the period ending October 31, 2011

November 15, 2011 - International Barrier Technology Inc. ("Barrier") (IBTGF: OTCBB; IBH: TSXV), a manufacturer of proprietary fire-resistant building materials has released monthly revenue and sales volumes results for the period ending October 31, 2011. Sales revenue generated fiscal year-to-date (Jul-Oct) increased 21% from \$1,158,244 last year to \$1,406,179. This includes an increase in revenue into the Residential Roof Deck/Wall Assembly/Structural Insulated Panel Market of 90% and there was no change in revenue into the Commercial Modular industry. Overall revenue generated for October was \$320,891, an increase of 15% over the \$278,970 shipped in October 2010.

Total sales volume of shipments for the year-to-date period (Jul – October 2011) is 21% higher (2,927,500 sq. ft. vs. 2,424,900 sq. ft.) over the comparable period in 2010. This reflects an increase in the Residential Roof Deck/Wall Assembly/Structural Insulated Panel markets of 92%. The Commercial Modular market shipments are slightly lower (by approximately 21%) fiscal year over year. Sales volume of shipments of Barrier products for the month of October 2011 were 717,800 sq. ft. vs. 650,800 sq. ft. shipped in October 2010, an increase of 10%.

At the end of October, the MuleHide FR Deck Panel was selected for a second large modular project providing temporary housing to Alaskan Oil field and rail road expansion projects. Product will begin to ship the end of November throughout December.

About International Barrier Technology Inc.

International Barrier Technology Inc. (OTCBB: IBTGF; TSXV: IBH) develops, manufactures, and markets proprietary fire-resistant building materials branded as LP[®] FlameBlock[®] Fire-Rated OSB Sheathing and Mule-Hide FR Deck Panel. Barrier's award-winning fire-resistant wood panels use a patented, non-toxic, non-combustible coating with an extraordinary capability: it releases water in the heat of fire. The panels exceed "model" building code requirements in every targeted fire test and application, and are unique in combining properties that increase panel strength and minimize environmental and human impact. Barrier's family of products provides customers a premium material choice meeting an increasingly challenging combination of requirements in residential and commercial building construction.
