

Year-to-date and Monthly Sales Revenue and Sales Volumes for the period ending March, 31, 2009

April 17, 2009 - International Barrier Technology Inc. ("Barrier") (IBTGF: OTCBB; IBH: TSXV), a manufacturer of proprietary fire-resistant building materials has released year-to-date fiscal (July 08 through March 09) and monthly revenue and sales volumes results for the period ending March 31, 2009. Overall revenue generated year-to-date is \$3,453,041 vs. \$3,528,864 during the same period in 2008. Revenue into the Residential Roof Deck Market grew 22% to \$533,117 in comparison to \$435,628 in 2008. Revenue attributable to the Commercial Modular industry was \$1,239,743 (in comparison to \$1,441,434 year-to-date through March 31, 2008) and revenue from the Structural Insulated Panel market grew from \$10,180.80 to \$17,606. Revenue for the month of March 2009 was \$192,267 vs. \$416,682 generated during the same period in 2008.

Sales volume of shipments of Blazeguard® products for the year-to-date period July 2008 through March 2009 was 4,768,700 sq. ft. This is in comparison to 5,331,700 sq. ft. that was shipped during the same period last year. Residential Roof Deck sales were higher by 29% (1,228,700 sq. ft. vs. 953,600 sq. ft. year-to-date through March 31, 2009). Commercial Modular shipments decreased year over year to 3,495,200 sq. ft. vs. 4,312,600 sq. ft. Shipments into the Structural Insulated Panel market for the six months were 44,800 sq. ft., in comparison to 65,500 sq. ft.

Shipment volumes for the month ending March 31, 2009 were 281,800 sq. ft., in comparison to 657,900 sq. ft. that was shipped during the same period one year ago. Commercial Modular shipments were 163,800 sq. ft., shipments into the Residential Roof Deck Market were 118,000 sq. ft. (vs. 538,300 sq. ft. and 119,600 sq. ft. respectively in the March 2008).

While Barrier's overall sales volumes are lower year-over-year compared to last year, the company remains focused on markets that have been significant opportunities historically (e.g., Multi-Family Residential Roof Decks and Commercial Modular) and those that show tremendous promise (e.g., Structural Insulated Panels and Wild-Fire Zone new construction). There are projects with Blazeguard specified that are currently "on hold" given overall economic conditions, primarily restrictions on financing. Barrier thus remains optimistic and well positioned for growth as general economic conditions improve.

About International Barrier Technology Inc.

International Barrier Technology Inc. (OTCBB: IBTGF; TSXV: IBH) develops, manufactures, and markets proprietary fire-resistant building materials branded as Blazeguard®. Barrier's award-winning Blazeguard® wood panels use a patented, non-toxic, non-combustible coating with an extraordinary capability: it releases water in the heat of fire. The panels exceed "model" building code requirements in every targeted fire test and application, and are unique in combining properties that increase panel strength and minimize environmental and human impact. Blazeguard® provides Barrier's customers a premium material choice meeting an increasingly challenging combination of requirements in residential and commercial building construction. Blazeguard® customers include many of the top multifamily homebuilders, and commercial modular building manufacturers in the United States.
