

Monthly Sales Revenue and Sales Volumes for the period ending September 30, 2011

October 14, 2011 - International Barrier Technology Inc. ("Barrier") (IBTGF: OTCBB; IBH: TSXV), a manufacturer of proprietary fire-resistant building materials has released quarterly and monthly and revenue and sales volumes results for the period ending September 30, 2011. Sales revenue generated for the first quarter of the fiscal period (Jul-Sep) increased 23% from \$879,274 last year to \$1,085,288. This includes an increase in revenue into the Residential Roof Deck/Wall Assembly/Structural Insulated Panel Market of 98% and 1% into the Commercial Modular industry. Overall revenue generated for September was \$375,501, an increase of 39% over the \$269,721 shipped in September 2010.

Total sales volume of shipments for the year-to-date period (Jul – Sept 2011) is 25% higher (2,209,800 sq. ft. vs. 1,774,100 sq. ft.) over the comparable period in 2010. This reflects an increase in the Residential Roof Deck/Wall Assembly/Structural Insulated Panel markets of 104%. The Commercial Modular market shipments are slightly lower (by approximately 17%) fiscal year over year. Sales volume of shipments of Barrier products for the month of September 2011 were 855,900 sq. ft. vs. 558,600 sq. ft. shipped in September 2010, an increase of 53%.

During this past quarter, the Mule-Hide FR Deck Panel was chosen for a large Commercial Modular project constructing temporary housing for oil field and railroad expansions. Shipments began towards the end of the quarter and are expected to continue over the upcoming quarter.

About International Barrier Technology Inc.

International Barrier Technology Inc. (OTCBB: IBTGF; TSXV: IBH) develops, manufactures, and markets proprietary fire-resistant building materials branded as LP[®] FlameBlock[®] Fire-Rated OSB Sheathing and Mule-Hide FR Deck Panel. Barrier's award-winning fire-resistant wood panels use a patented, non-toxic, non-combustible coating with an extraordinary capability: it releases water in the heat of fire. The panels exceed "model" building code requirements in every targeted fire test and application, and are unique in combining properties that increase panel strength and minimize environmental and human impact. Barrier's family of products provides customers a premium material choice meeting an increasingly challenging combination of requirements in residential and commercial building construction.
